

6°C / 10.8°F cooler than others.

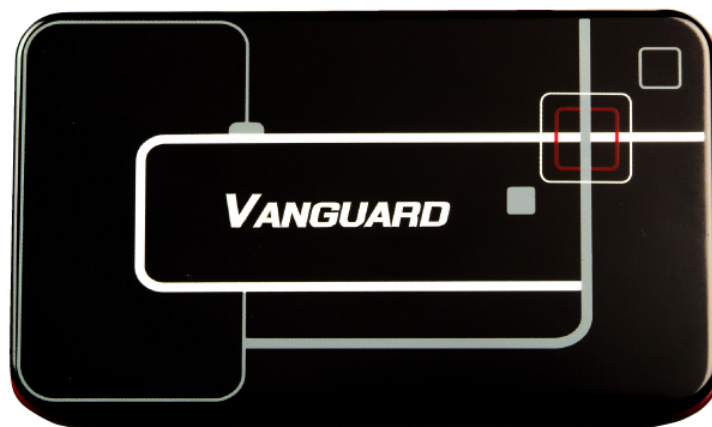

World's first

Thermal conductive rubber

Aluminum heat sinks

Leading thermal conduction technology.

Features

- External 2.5" massive aluminum HDD box with USB 2.0 for easy plug & play.
- World's first built-in aluminum heat sinks on the side for maximum cooling.
- World's first integrated high-tech thermal conductive rubber to optimize heat dissipation.
- Cypress AT2+ chip inside for highest performance
- Super slim and stylish design.
- Long life blue/red LED power and access indicator.
- Water-resistant travel bag and even a matching screw driver are enclosed.

Specifications

Application	2.5" IDE HDD
Interface	USB 2.0
Data Transfer Rate	Up to 480 Mb/sec
PCBA chip	Cypress AT2+
Material	Aluminum
Power Source	USB Bus Power +5V
Support HDD	4500-7200RPM
Power & Access indicator	Blue/Red LED
Support OS	Windows® 98SE/ME/2000/XP Mac OS 8.6 or higher
Dimension(DXWXH)	140mmX81mmX17mm 5.51"X3.19"X0.69"
